
Annexure III : Existing POI / POP List

**Annexure III
Existing POIs / POPs List**

**List of Existing Nodes and ADD Drops Along CT Sabah's Network for Bandwidth
Services**

Existing Points of Interface List

Note:

Access Seeker may add drop at any of CT Sabah Nodes above provided there is an available Add Drop MUX and may be subject to any cost payable by the Access Seeker.

The interface offered at the Nodes is a G.703 interface.

Any interconnectivity arrangements outside the parameter of CT Sabah's network shall be considered as additional customized network connectivity solution and shall be subject to additional costs payable by Access Seeker.
